

Isle of Wight Rally page 2

The rally attracted about 35 Minors and the same number of other classics. Very well organised by Will Sprack and the IOW branch committee, activities included rides on the trains, an open-top bus tour on a 1939 Southern Vectis vehicle (apparently it's in the Guinness Book of Records for longest service in the same company), a barbecue, a run out to Sandown with a visit to the zoo, and a pub dinner. The station museum and works have been much extended over the past few years - plenty to see and do over the weekend. To get a flavour of the site, go to the station webcam on the following link:
