

Minor Messages Series 2 no. 4 When the cows got out!

I went off for flour again at Shipton Mill but when I turned down into the track I found the cows had got out - they had pushed the gate off its hinges and were trampling over it.

Down at the mill I raised the alarm and then waited a few minutes as I didn't want to create more trouble on my way out. By the time I came up they were being herded back along the B4040 - there were more of them than I realised and they had got quite some way along the road in a short time.

You wouldn't want to come round a bend and meet this lot: always be prepared to stop safely in the distance you can see to be clear!

Sharon's sister and her family are at Shipton Mill, which is why we get our flour there.
